

Forecast dates for the Australian Energy Market Commission's Rule Change Requests and Reviews

Table with columns for Project title, Project Number, Proponent(s), Status, Date Initiated (Forecast Initiation), and a timeline grid from 8-Aug to 28-Aug. Rows include categories like RULE CHANGES - ELECTRICITY, RULE CHANGES - RETAIL, RULE CHANGES - GAS, and MARKET REVIEWS AND ADVICE. Each cell in the grid contains an icon representing a stage in the process (e.g., Consultation, Draft Determination, Final Report).

Rule change key legend with icons and labels: Consultation, Public forum or workshop, Discussion Paper, Draft Determination, Consultation Paper (Initiation).

Review key legend with icons and labels: Discussion Paper/Approach Paper, Consultation, Public forum or workshop, Draft Report, Final Report.

In the above rule changes, the dates included are reflective of a standard (or, where noted, an expedited) rule change process but are subject to change where the Commission considers it necessary because the rule change request raises issues of sufficient complexity or difficulty or there was a material change in circumstances. In the above reviews, the dates are reflective of those set out in the proposed timetable for that review but could be subject to change.
