Dear Australian Energy Market Commission

Estimated meter reads draft rule determination
Reference number: ERC0241

Powershop Australia Pty Ltd (**Powershop**) thanks the Australian Energy Market Commission (**AEMC**) for the opportunity to provide comments on the estimated meter reads draft rule determination.

Powershop is satisfied with the drafting of the National Energy Retail Rules as detailed in the Draft National Energy Retail Amendment (Estimated meter reads) Rule 2018 No. 3.

Powershop believe the AEMC has sufficiently balanced customer experience and implementation costs effectively to meet the desired outcome of the rule change.

If you have any queries or would like to discuss any aspect of this submission please do not hesitate to contact me.

Yours sincerely,

Haiden Jones
Operations Manager
Powershop Australia Pty Ltd
