

Formal commencement of claim

Ref. CRP0142

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Rules as follows:

On 30 June 2022, the AEMC received notification of a claim for compensation under clause 3.14.6 from Sunset Power International Pty Ltd (trading as Delta Electricity) following the application of the administered price cap during an administered price period in Queensland, New South Wales, South Australia and Victoria between 12 June 2022 and 23 June 2022.

Sunset Power International Pty Ltd (trading as Delta Electricity) is claiming compensation for opportunity costs only incurred in operating Vales Point power station during the administered price period. As a result, the claim is not a direct cost only claim.

Sunset Power International Pty Ltd (trading as Delta Electricity) provided initial information in support of its claim on 6 December 2022 and, since that time, has provided additional supporting information, including in response to requests for information from the AEMC.

The AEMC is reasonably satisfied that it has sufficient information from Sunset Power International Pty Ltd (trading as Delta Electricity) to assess the claim and has now formally commenced assessment of the claim. The timeframes provided in clauses 3.14.6(o) to (s) of the National Electricity Rules will now apply to this claim for compensation.

8 June 2023
