Comments: My submission is you can get stuffed on your smart meter acceleration. The people of Australia know what you are doing with this supposed policy and you can take it and shove it where it hurts because it is by design - to harm us. You are all criminals trying to harm humanity under the New World Order riding instructions in Smart Cities and UN Agenda 2030 and we are onto you. I REFUSE to have a SMART meter on my home. SMART = CRIMINAL BEHAVIOUR OF POLITICIANS AND WE ALL KNOW IT. [REDACTED]

[REDACTED] I worked for Energy Australia and have discussed this at length globally with experts everywhere and UNDER NO CIRCUMSTANCES is SMART METER TECHNOLOGY GOOD FOR HUMANS. we know that it stands for "surveillance and reporting technology! Get stuffed.technology".
