

Submission Type: Rule Change

Reference: Accelerating smart meter deployment

Organisation: N/A Individual

First Name: Belinda

Last Name: Moloney

Email: [REDACTED]

Phone Number: N/A

Comments: I have become increasingly sensitive to EMF emissions and once a smart meter was installed at my house, I could no longer sleep in my bedroom, and I had to move to the opposite end of the house due to this EMF increase.

I do not wish to have a smart meter and I refuse to do so. This roll out with no opt-out option puts people like myself in an awkward position as I cannot live without power and possibly need to opt out of on-grid living. I know many people in a similar situation and I would not approve of this update.
