Comments: I Definitely Do Not Agree with this proposed roll out of Smart Meters And certainly not to be told it will be mandatory.

I'm presently purchasing devices for Blue Light protection and all other radiation emitting devices.

I do not and will not have a mobile phone for this reason alone so I am very against smart meters.

Radiation is a classifiable condition from exposure to radiation frequency, I'd expect the company supplying these smart meters have a lot of Insurance\$ to roll out.

Sincerely Helen Rolls
