

Submission Type: Rule Change

Reference: Accelerating smart meter deployment

Organisation: Better Together

First Name: Nadja

Last Name: Cohendy

Email: [REDACTED]

Phone Number: [REDACTED]

Comments: No thank you. Why would you make mandatory something that damage our health ? There is no proof that it is safe. There is no proof that it really improves customers electricity usage and what it's claimed to improve. It's the same as the Covid vaccin. Mandatory, yet no proof of safety. A few years later it turns out to be utterly unsafe, with the mortality of the population raising by... a lot. No thank you, I do not want it to be compulsory. Please remove the smart meter that I unknowingly allowed to be installed in my home.
