Reference: Minor changes 1 2024

Organisation: NA

First Name: Rodney

Last Name: Fagg

Email: [REDACTED]

Phone Number: [REDACTED]

Comments: G'Day, my submission is that I am completely against the smart meters altogether. First reason is that it can be turned off at any time with no apparent reason, it's out of the consumer's control. I also suffer from Tinnitus, Fatigue, Depression which I take medication and Anxiety from the 4G and 5G tower which is 200 meters from my home pushing out EMF radiation. I don't want any more radiation thank You.

I do not consent to a smart meter being attached to my home. I do not consent to be further radiation being forced on me. I just do not consent.

Thank you
