Subject: Submission Received

The below submission has been lodged and confirmed on the AEMC Web site.

Submission Type: Market Review

Reference: The pricing review: Electricity pricing for a consumer-driven future

Organisation: Save Our Surroundings Riverina

First Name: Lynette

Last Name: LaBlack

Email: [REDACTED]

Phone Number: [REDACTED]

Comments: Consumers are sick to death of being conned by the lies & deception of the Government & Regulators peddling the Fake Green RenewaBULL Energy Poverty Grift & Ponzi Scheme/Scam that ONLY benefits predatory Generators & greedy bullying Networks who are manipulating the system, whilst torturing everyday consumers & businesses/industry with ever skyrocketing electricity prices, energy poverty & rolling BLACKOUTS.

Australia's Independent Energy Security, Food Security, Economic Prosperity & National Security are all being trashed by AEMC's diabolical Rule Changes & unethical behaviour & WE DO NOT CONSENT TO The Australian Energy Market Commission's "consultation paper as part of its plan to design a pricing framework that better serves energy consumers" as this is TYPICAL LIES & DECEPTION - NOT IN THE BEST INTERESTS OF AUSTRALIAN CONSUMERS OR FOR THE GREATER GOOD OF AUSTRALIA OR GLOBALLY.

IT IS AGAINST OUR WILL & WE DO NOT CONSENT TO the sneaky, underhanded tactics & actions of the Government, the Regulators, Generators & Networks to sponge on privately purchased 'Consumer Energy Resources' to make them SERVE THIS FLOUNDERING ELECTRICITY GRID WHICH AEMC IS DESTROYING BY INCORPORATING DESTABILISING, NON-SENSICAL, WEATHER DEPENDENT, RENEWABULL JUNK THAT DOESN'T WORK MOST OF THE TIME!

NEITHER DO WE CONSENT TO THE LUNACY OF FIRE HAXARDOUS, TOXIC PFAS CAUSING 'COMMUNITY' BATTERIES ON POWER POLES - PRESENTLY FORCED ON THE WAGGA WAGGA COMMUNITY & ELSEWHERE BY ORIGIN & ESSENTIAL ENERGY - AGAINST OUR WILL & WITH NO SOCIAL LICENCE!

AEMO IS A CULT!
IT DOES NOT FOLLOW THE LAWS OF PHYSICS & THE PRINCIPLES OF ENGINEERING.
BAD ELECTRICITY
BAD PLANNING
TERRIBLE OUTCOME

WE ARE PLANNING TO FAIL!

None of AEMC's propaganda is ETHICAL, has INTEGRITY, is based on ENGINEERING FACTS or SCIENTIFIC CERTAINTY & consumers are now increasingly becoming aware of the regulators dodgy antics & total rip-off - absolutely horrified at the disingenuous & insidious nature of AEMC's twisted scheme/scam under the guise of consumers wanting 'to use and interact with the energy system.'

Reputable, independent, peer reviewed research proves the complete opposite to AEMC's false claims of:- "Research shows that effectively integrating consumer energy resources could deliver net benefits of \$6.3 billion by 2040. Getting pricing structures right will be crucial to realising these benefits for all consumers," Ms Collyer said.

THE AUSTRALIAN PEOPLE MUST HAVE A RELIABLE, SECURE, SAFE, AFFORDABLE ELECTRICITY SERVICE THAT IS AVAILABLE ON DEMAND & a RELIABLE, SAFE, SECURE NATIONAL ELECTRICITY SYSTEM.

THIS MEANS WELL PROVEN, AUSTRALIAN COAL POWER &/OR A NUCLEAR POWER FUTURE.

AEMC's plans & framework are DEFYING ALL Aspects of the National Electricity Law Objective:- The objective of the National Electricity Law is to promote efficient investment in, & efficient operation and use of, electricity services for the long term interests of consumers with respect to:-

(a) price, quality, safety, reliability and security of supply of electricity; and

(b) the reliability, safety and security of the national electricity system; and

(c) the achievement of targets set by a participating jurisdiction

(i) for reducing Australia's greenhouse gas emissions; or (ii) that are likely to contribute to reducing Australia's greenhouse gas emissions.

AEMO, and everyone in 'authority', place primacy on the emissions target rather than the other requirements of the NEL.

The emissions requirement was only added to the NEL in Sep 2023, with States tardy to legislate any targets, so on what basis did any Gov act prior to

that to impose all this on us? Yet they all did, and still emphasise emissions over other objectives.

NEL is made in the SA Parliament, and in the 2nd reading, the minister there also reiterated that ALL OBJECTIVES ARE EQUAL.

As we have clearly seen proven at Broken Hill recently "Wind and Solar are worse than useless in a crisis like this, because it's detrimental to having a consistent power supply," Mayor Tom Kennedy said.

"I'd hate to see what happens in the capital cities in a similar crisis."

<https://joannenova.com.au/2024/10/650m-in-renewable-energy-didnt-save-broken-hill-from-days-of-blackouts-after-a-storm-islanded-it/>

Independent, expert clarification of the average Capacity Factor of Industrialised Wind & capability of the BESS is required in order to satisfy AEMC's false claims of supplying reliable, secure energy at the lowest cost - with a pricing structure that benefits all consumers.
