The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law as follows:

Under s 95, TasNetworks has requested the *Application of rate of return guidelines to TasNetworks* (Ref. ERC0223) proposal. The proposal seeks to address the timing of the revised Rate of Return Guidelines' application to TasNetworks' distribution business. The AEMC intends to expedite the proposal under s 96 as it considers the proposed Rule is non-controversial, subject to requests not to do so. Written requests not to expedite the proposal must be received by **5 September 2017**. Submissions must be received by **19 September 2017**.

Under s 95, AEMO has requested the *Declaration of Lack of Reserve Conditions* (Ref. ERC0226) proposal. The proposal seeks to replace the current credible contingency-based definitions of lack of reserve levels with a system triggered by a wider range of risks than those presently allowed for in the definitions. Submissions must be received by **19 September 2017**.

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website.
