

Notice under National Electricity Law

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law of the following matters.

Under sections 102 and 103, the making of the *National Electricity Amendment (Removal of Performance Standard for Identifying Manifestly Incorrect Inputs) Rule 2009 No. 5* and related final determination. All provisions commence on **27 February 2009**.

Under section 99, the making of a draft determination and draft *National Electricity Amendment (NEM Reliability Settings: VoLL, CPT and Future Reliability Review) Rule 2009* (Project No. ERC0080). In relation to the draft determination:

- requests for a pre-determination hearing must be received by **6 March 2009**; and
- submissions must be received by **16 April 2009**.

Under section 95, the Ministerial Council on Energy (MCE) has requested the *Regulatory Investment Test for Transmission* Rule proposal. The proposal seeks to implement the Regulatory Investment Test for Transmission to displace the current Regulatory Test. The AEMC has decided to fast track this Rule change request under section 96A of the NEL.

Under section 95, the MCE has requested the *National Transmission Statement* Rule proposal (Project No. ERC0078). The proposal seeks to displace the Annual National Transmission Statement with the National Transmission Statement for 2009. The AEMC intends to expedite the Rule proposal under section 96 as it considers the proposed Rule is non-controversial, subject to the receipt of written objections.

In relation to the proposal:

- written objections must be received by **13 March 2009**; and
- submissions must be received by **27 March 2009**

Any written objections, submissions and requests for a hearing can be forwarded to submissions@aemc.gov.au and must cite the Project No. in its title.

Submissions should be submitted in accordance with the *AEMC's Guidelines for making written submissions on Rule change proposals*. The AEMC publishes all submissions on its website subject to a claim of confidentiality.

Further details on the above matters are available on the AEMC's website www.aemc.gov.au. All documents in relation to the above matters are published on the AEMC's website and are available for inspection at the offices of the AEMC.
