

The Chairman
Australian Energy Market Commission
Level 5, 201 Elizabeth Street
Sydney
NSW 2000

Melbourne, 28 May 2008/SFO

Dear Sir/Madam

Confidentiality Arrangements in Respect of Information Required for Power Systems studies

I refer to the notice published by AEMC under section 95 of the National Electricity law in relation to the above Rule change proposal.

In relation to the proposed rule change as submitted by the National Generators Forum, dated 8 April 2008, I suggest the following amendments be made to Attachment A:

1. Page 2 - Clause 3.13.3 Standing data (p1)
After the word "*maintain*" insert a comma, delete the word "*and*" and insert after the word "publish the following words: "*and make available to the original discloser of the information referred to in section 3.13.3*".
2. Page 7 – Chapter 10 Definitions
In the 'releasable user guide' definition, please delete the words "*sufficient information to enable*" and insert the words "*the numerical values associated with the software model for the purpose of*". Please substitute the word "*use*" with the word "*using*".

If you have any queries about these changes please do not hesitate to contact me.

Yours sincerely
Vestas Australia

Serge Forza
