Dear Dr. Tamblyn,

Proposed National Electricity Amendment (Advocacy Panel) Rule 2006

The Major Energy Users Inc. (MEU) supports the draft rule changes proposed by the AEMC.

Improved governance and accountability in the operations of the Advocacy Panel are in the long term interests of energy consumers. The MEU applauds the key changes proposed by the AEMC, especially in relation to Section 8.10.8 (d), concerning conduct of an audit on Advocacy Panel activities.

Yours sincerely
