**Draft Rule Determination
National Gas Amendment (Contingency Gas Evidentiary Changes) Rule 2014**

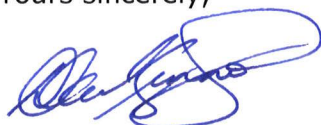

Dear Mr Pierce,

We have examined the Draft Rule Determination and are happy to endorse the commission's ruling on the rule change proposed by AEMO. The rule change now:

- Clarifies AEMO's ability to resettle the contingency market by seeking evidence from participants scheduled to deliver CG about the actual quantities delivered;
- Provides clarity about AEMO's role in the confirmation process being confined to the total quantity of CG; and
- Extends the time available to AEMO to prepare reports in relation to contingency gas trigger events.
