

2 October 2006

Dr John Tamblyn
Chairman
Australian Energy Market Commission
Level 16
1 Margaret Street
SYDNEY NSW 2001

Dear Dr Tamblyn

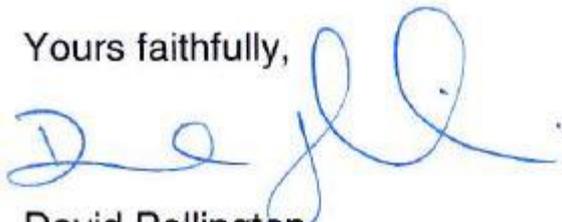

**REQUEST TO MAKE A RULE (PARTICIPANT DEROGATION)
STUDLAND BAY WIND FARM TECHNICAL STANDARDS – VOLTAGE
RIDE THROUGH**

I refer to our rule change request in relation to voltage disturbance ride through dated 18 August 2006 and Transend Network's subsequent drafting submission in relation to that request dated 28 September 2006.

Roaring 40s wishes to advise that it supports the proposed drafting changes submitted by Transend. Roaring 40s considers the drafting proposed by Transend to be a practical way of aligning the rule change that has been requested by Roaring 40s with the other generator technical standards provisions of the NER. It also ensures consistency with relevant provisions of the NEMMCO 'Technical Standards for Wind Generation' rule change request (should this proceed as proposed).

If you have any questions relating to this issue, please contact Andrew Jones on ph 0400 537 944.

Yours faithfully,

David Pollington,
General Manager Construction.
