Dear Sir/Madam

Draft Report – Review of National Framework for Electricity Distribution Network Planning and Expansion

The purpose of this letter, which is available for publication, is to notify the Australian Energy Market Commission (AEMC) of an error in Ergon Energy Corporation Limited's (Ergon Energy) submission to the AEMC on the *Draft Report - Review of National Framework for Electricity Distribution Network Planning and Expansion* (the Draft Report).

You will recall that Ergon Energy provided a response to the AEMC in relation to the Draft Report on 13 August 2009. Ergon Energy submitted in the Draft Report that our network comprised approximately 12,000 distribution feeders¹. Ergon Energy has subsequently identified that this was an error, and in actual fact, Ergon Energy's network is comprised of approximately 1,733² distribution feeders.

Ergon Energy appreciates the AEMC taking note of this error, and looks forward to providing continued assistance to the AEMC in its review of the National Framework for Electricity Distribution Network Planning Expansion.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Tony Pfeiffer', with a horizontal line extending to the right.
