Dear John

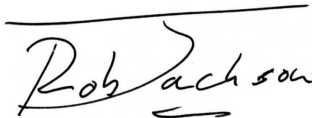

RE: ERC0089 Draft National Electricity Amendment Confidentiality Provisions for Network Connections Rule 2009

The Clean Energy Council is pleased to respond to the Commission on the Draft National Electricity Amendment Confidentiality Provisions for Network Connections Rule 2009 ("Draft Rule Determination").

As confidentiality is very important to project developers, it is important that the proposed rule change has the correct balance between transparency and confidentiality.

Therefore, the Clean Energy Council supports the Draft Rule Determination as drafted.

Yours sincerely
