**UED response to Australian Energy Market Commission:  
Review of demand-side participation in the National Energy Market –  
Stage 2 Issues Paper**

United Energy Distribution (UED) appreciates this opportunity to make a submission to the AEMC's consultation on the Stage 2 Issues Paper. UED recognises that getting the right balance of incentives in the Rules to support efficient demand-side participation is an important task.

UED looks forward to further consultation on this issue.

Yours sincerely
