

2nd May 2011

Australian Energy Market Commission

PO Box A2449

Sydney South NSW 1235

Dear Sir/ Madam

SUBJECT: Scale Efficient Network Extensions draft determination (Project No. ERC0100)

Nyrstar supports the AEMC's draft determination in relation to the framework for Scale Efficient Network Extensions. Nyrstar concurs with the Commission's finding that the costs and risks associated with transmission investment are best borne by market participants and investors rather than consumers.
