

The below submission has been lodged and confirmed on the AEMC Web site.

Submission Type: Rule Change

Reference: Implementing a general power system risk review

Organisation: private individual

First Name: geoff

Last Name: mitchell

Email: [geoffmaureenmitchell@yahoo.com](mailto:geoffmaureenmitchell@yahoo.com)

Phone Number: 0403452293

Comments: If you charge people who have a battery and export the surplus to the grid you are making the battery useless. We would be better of going off grid altogether and then the surplus energy would be lost to you completely.
