Dear John

**National Electricity Rule Proposal – clarification of recovering affected participant compensation for RERT activation**

I refer to our rule change proposal submitted on 19 September 2019. I wish to clarify that the rule change request refers to affected participants in the sense used in the final report of the AEMC’s interventions investigation. In that report, the AEMC refers to affected participants as “those parties whose dispatch targets have been affected as a result of an AEMO intervention event”. The reference to affected participants in our rule change request should be read in the same manner – that is, encompassing both Affected Participant as defined in the National Electricity Rules (NER) and market customers with scheduled loads may be eligible for compensation under 3.12.2 of the NER.

Should you have any questions on this issue, please contact Kevin Ly on [Kevin.Ly@aemo.com.au](mailto:Kevin.Ly@aemo.com.au)

Yours sincerely

Peter Geers  
**Executive Group Manager, Strategy and Markets**
